

# B e t - S m a r t

Grupo 3

# PROJECT OBJECTIVES

- Develop an intuitive and user-friendly sports betting platform
- Implement user authentication and manage accounts
- Provide real-time listings of events
- Enable secure placement of bets and transaction processing
- Offer recommendations and insights to users

# DEVELOPMENT PROCESS

## REQUIREMENTS ANALYSIS

Specifications and validation

## IMPLEMENTATION

Coding, code review  
and integrations

## DOCUMENTATION

Technical and user  
documentation

## PLANNING

Objectives, project  
scope and resources

## DETAILED DESIGN

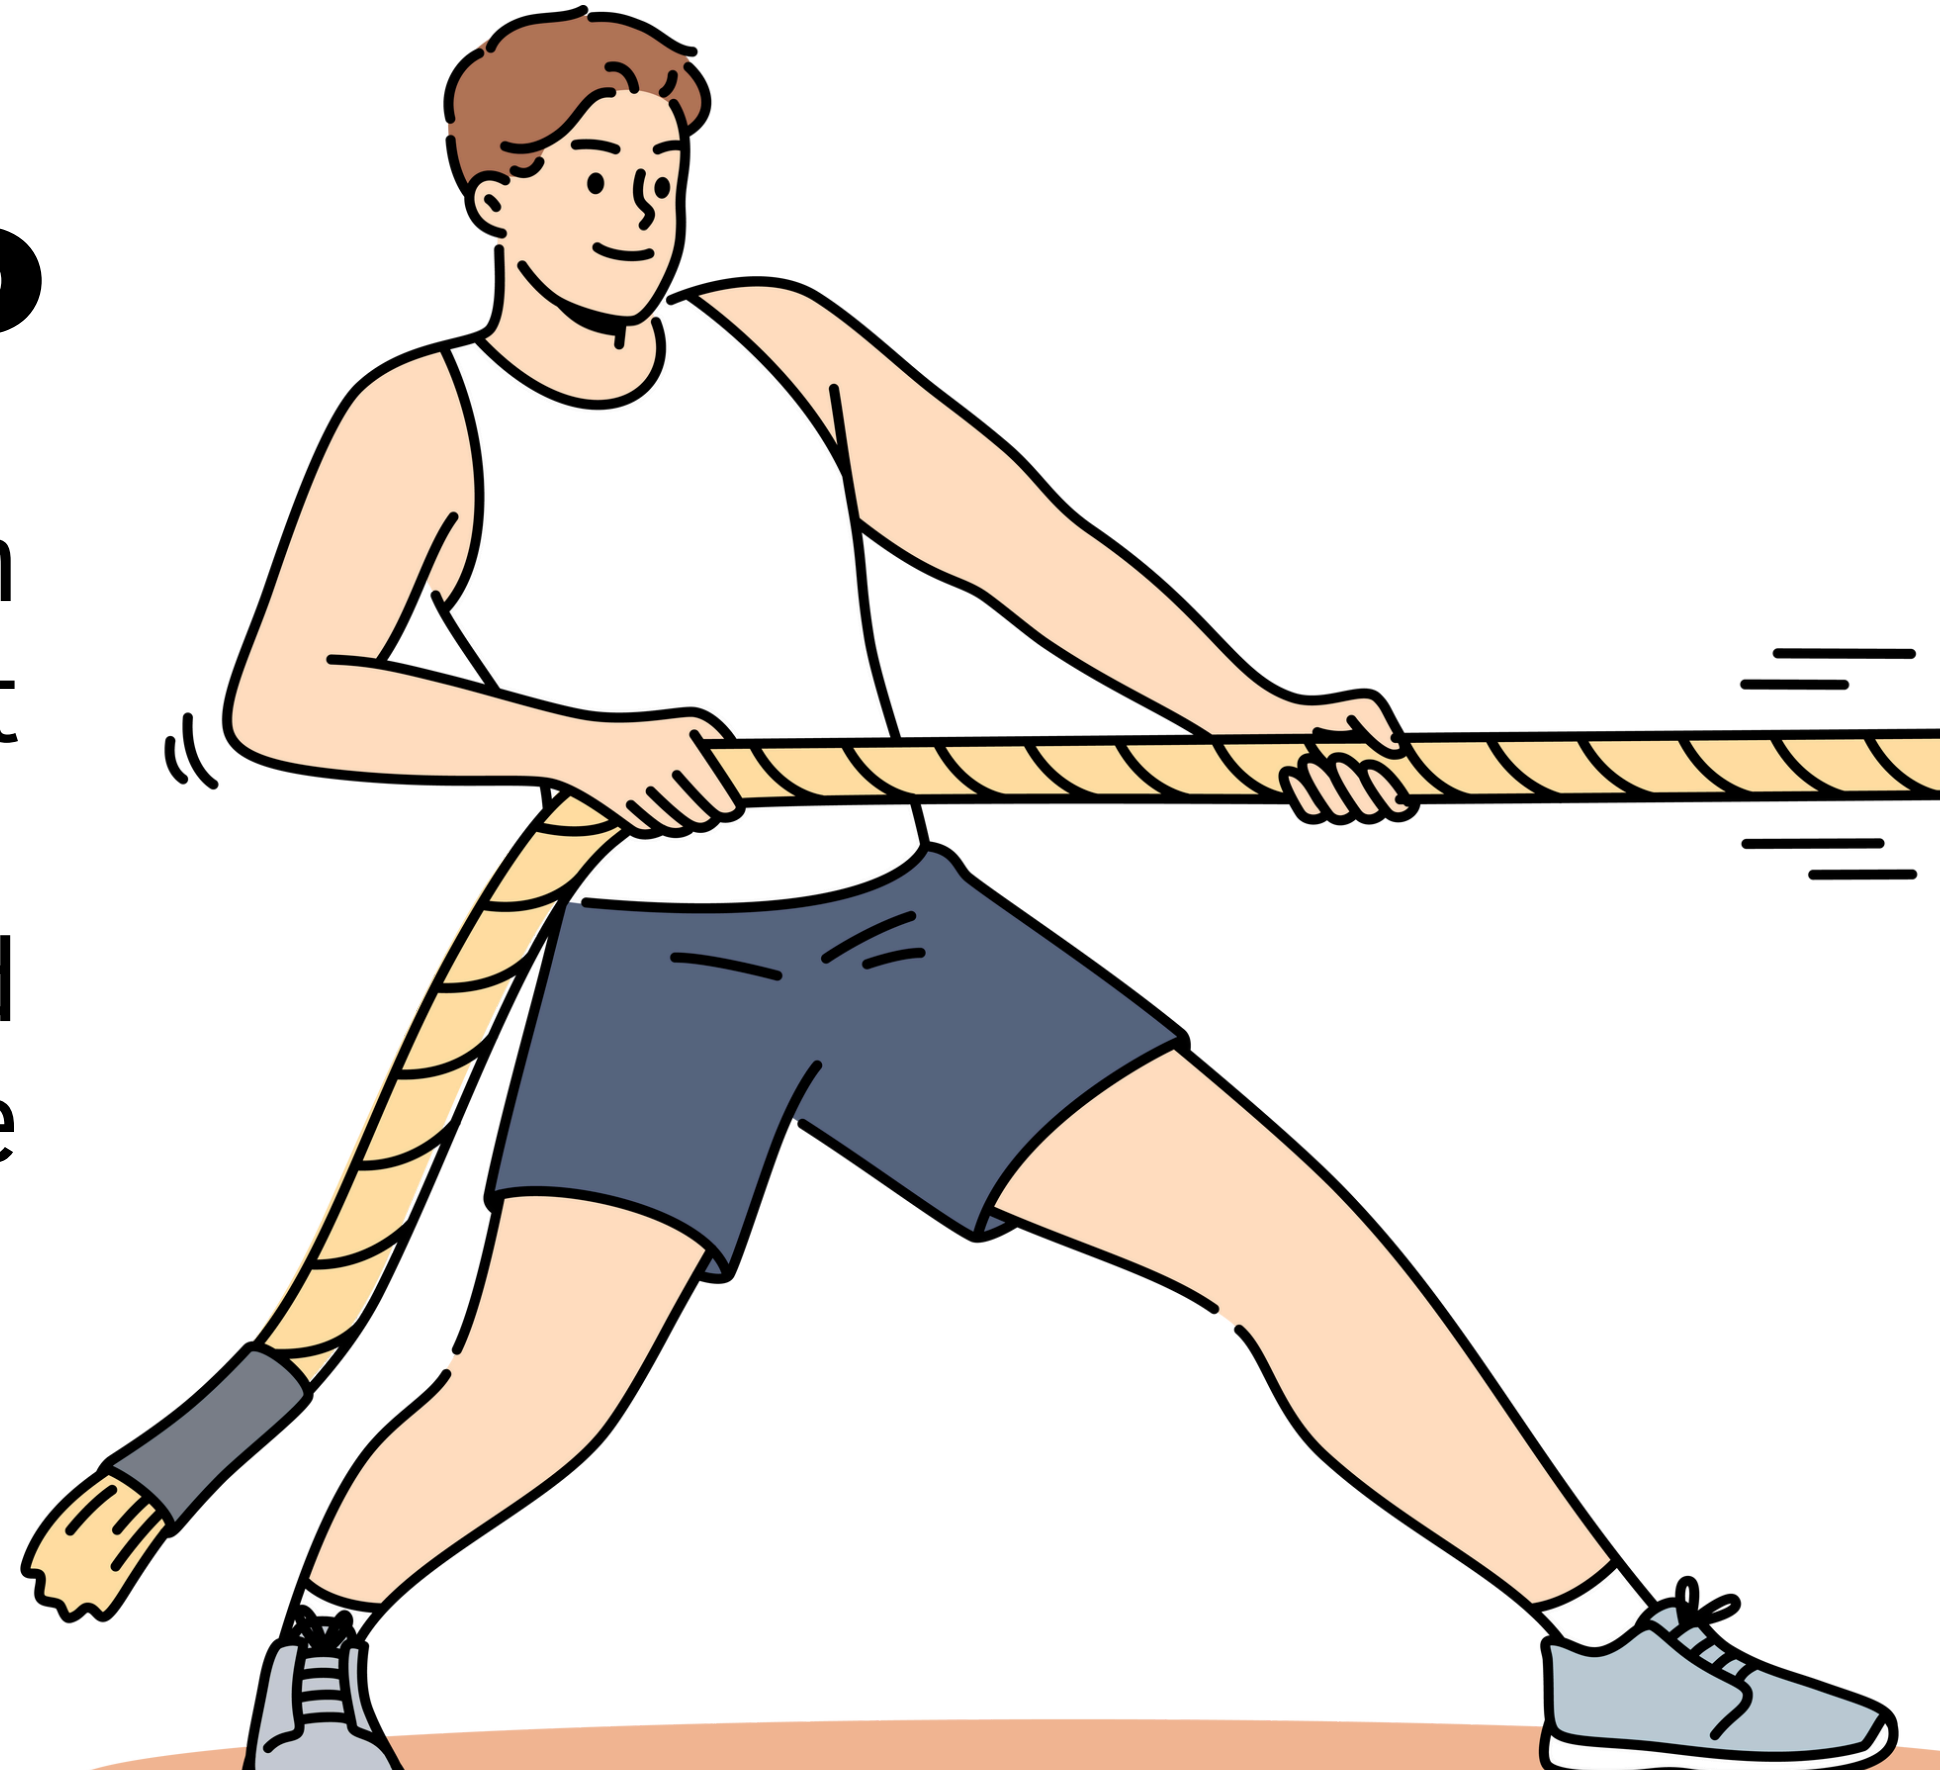

Architectural design and review

## DEPLOYMENT AND TESTING

Unit and integration  
testing, monitoring

# CHALLENGES FACED

- Resource limitations in terms of time and amount of team members
- Technical problems related to the hardware, software and other tools used

**SOLUTION  
IMPLEMENTED**

# **FUTURE ENHANCEMENTS**

## **Personalized User Experience**

- Personalized content recommendations based on AI
- Regular UI/UX updates

## **Advanced Security**

- Multi-Factor Authentication (MFA)
- Real-time fraud detection

## **Expanded Features**

- Advanced analytics
- Social sharing options
